AWA MOST INNOVATIVE COMPONENT

Window Weather Systems

Window WeatherGuards and Self Locking In Channel Fly Screen Framing

Window WeatherGuards and the In Channel Self Locking Fly Screen Framing allow for the free flow of cool, energy efficient, health and productivity improving fresh air 24/7 - rain, hail or shine.

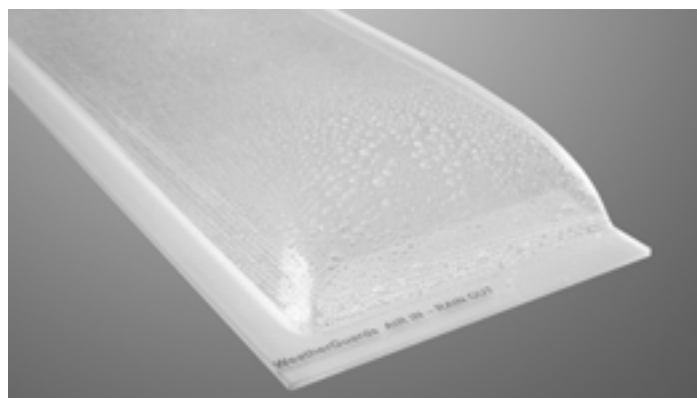

WeatherGuards are a acrylic moulded aerodynamic profile that self-lock into the "In Channel Fly Screen Frame" both frame sizes are catered for allowing a universal fit across all sliding window brands. WeatherGuards are moulded for each window manufacture allowing OEM specifics in relation to sizes, shape etc.

WeatherGuards protect the home's interior; substantially improve ventilation while lowering levels of indoor air borne toxins. WeatherGuards noticeably reduce energy consumption and green house gas emissions. WeatherGuards costing around the same as an average fly screen have a zero running cost.

JUDGES' COMMENTS

A very innovative product. There is nothing else like it on the market.
